Géovic KPOSSILANDE

Full-Stack Developer | Aspiring Software Engineer.

Full-stack developer and aspiring software engineer, I design and develop end-to-end web applications using Python, Django, React, TypeScript, and PostgreSQL. I am particularly interested in designing reliable, maintainable, and scalable software, and I am currently developing my skills in software architecture, system design, testing, DevOps, and distributed systems.

Work Experience

● Web Developer

De jan. 2024 à sept. 2024 [Ministry of Economy and Finance](#) Cotonou

- Developed and integrated frontend features using Vue.js and Laravel
